How do you see the role of arts and culture in Kingston?

Arts and culture provide vibrancy to the city, and add to the health and wellness of the residents. It is also an economic driver for tourism and jobs.

What role should the City of Kingston play in supporting a sustainable arts and culture sector?

Setting both the conditions for arts and culture to thrive by helping to assist with spaces, promotion and sustainable funding streams.

If elected, are there any actions you would take to help strengthen Kingston's arts and culture sector?

While grants have played an important role in supporting the arts I would support a different approach that involves setting up a sustainable arts fund. I supported developing live work spaces for artists and would continue to do so.
