How do you see the role of arts and culture in Kingston?

Art is an integral part of a community, it is what brings people together. It sparks discussion and emotion.

What role should the City of Kingston play in supporting a sustainable arts and culture sector?

The City should make sure that adequate continued funding be allocated to supporting the arts. The City should also promote the arts and a I also think that Councillors should attend and participate in as many art functions as possible.

If elected, are there any actions you would take to help strengthen Kingston's arts and culture sector?

Yes, I think that continued funding is required, to make sure that all the needs are met. Also to make sure that there is good communication and dialog to see how things can be improved.

Additional Comments
